CHAPTER THREE ☰

Three-Note Voicings

Play **figure 3-1**, the first two bars of the Hill-Robinson standard “Old Folks.” The chords in this example are *three-note voicings*, consisting of the root, third, and seventh of each chord. As you just learned in Chapter Two, the third and seventh of a chord determine the chord quality: major seventh, minor seventh, or dominant seventh.

Figure 3-1

Reviewing the rules:

- A major seventh chord has a major third and a major seventh.
- A minor seventh chord has a minor third and a minor seventh.
- A dominant seventh chord has a major third and a minor seventh.

Remember, the fifth is not as important because each chord has a perfect fifth (there is an exception to this—the half-diminished chord—which we’ll get to in Chapter Five). Three-note voicings reduce most chords to three essential notes: the root in the left hand, and the third and the seventh in the right hand.

Using three-note voicings enables you to play II-V-I, the basic progression in jazz harmony, with a maximum of smoothness, or *good voice leading*. Let’s try playing a II-V-I in the key of C with these new voicings.

The II chord in the key of C is D-7. Play the root, D, with your left hand, and the third and seventh, F and C, with your right hand (**figure 3-2**). While you’re holding D-7, think of what the third and seventh are for the next chord, G7. The third of G7 is B, just a half step below the C you’re already playing. The seventh of G7 is F, which you’re already playing. Move the C down a half step while moving your left hand to the new root, G, and you’re playing G7.

Figure 3-2

Now think of what the third and seventh are for the next chord, CΔ. The third of CΔ is E, a half step below the F you’re already playing. The seventh is B, which you’re already playing. Lower the F
